

Audio Visual Pricing

So you're planning an event or function!

We have a range of audio visual equipment available for hire that can be used to meet your events requirements and help to make your day extra special.

Whether it's a simple microphone for a small conference or a complex lighting and sound set up for a large event, we can help.

If your event requires equipment that we do not have in stock we will work with our network of industry suppliers in order to supply you with the right equipment and expertise at a fair market rate.

Some notes about our technical operations:

No external production or technical equipment is to be brought into the venue without prior approval by the UCSA Production & Resource Coordinator.

Where clients elect to bring in production or technical equipment, there is an hourly charge for a venue technician to supervise any activity occurring in the venue.

All equipment coming into the venue is required to be labelled with a current test tag. Current is defined as:

- For equipment owned by the client, within 1 year.
- For equipment hire in, or charged on within the last 3 months.
- Where equipment does not have a current test tag, we can test it for a charge of \$4.50 per test tag.

Labour is charged out at \$45 per hour or for UCSA affiliated clubs \$35 per hour.

Minimum call out time is for two hours.

For large or complicated events, planning labour may also be charged at the discretion of the UCSA. The venue is to be returned to standard production configuration unless by prior arrangement. Costs to return it to standard configuration will be charged as additional.

PA (public address) Equipment

We have a great range of amplified sound equipment available for your next meeting or party.

Note: All systems in this section are not operated by a technician; if a technician is required a \$45 + GST per hour charge will be added (minimum two hours call out).

Price: \$90 + GST per day.
position

\$27.99 + GST *per additional day of use in same venue &*

Package Two:

Recommended for keynote presentations of 200 + in the Foundry

For events that need a larger screen, we have a range of bright HD projectors available as well as specific lens options. We can front project or rear project on screens up to 3.6m wide which look great in our venue. To give you an idea of these costs we have a couple of options available but can discuss the exact setup of these to meet your needs.

- Wide format projector screen
- High spec, high lumens projector on a stand.
- Including all necessary cables
- Set up and pack down labour included

Price: \$649 + GST

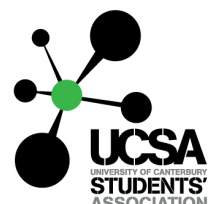

Need amplified sound?

Add a mic, mic stand and use of the Foundry PA (If on stage) for and additional \$199 + GST.

Where space is at a premium or when you do not want the projector to be visible to guests, we are able to project from a short distance behind the screen.

- The extra cost for this lens is \$249 + GST.

All prices are GST exclusive

Foundry Sound System (PA) costs

Events and their AV requirements vary greatly from event to event. Below we have listed some options that may fit your requirements; however for larger events with complex requirements it is best to get in touch with us to discuss the costs in detail.

Option One: - Bands and live shows

Used for live local bands, international touring artists or anything that requires high quality loud sound. This full concert sound system can really get your function or event going.

Included in option one is...

- Use of full stage (set to 900mm in height),
- 3-Way JBL sound system
- Midas M32 console
- Range of microphones and DI's.
- Large truss arch (2.5m x6m)
- 4 blinder lights and
- 8 LED parcans.

We can talk directly to your band in order to ensure that everything runs smoothly on the night.

Price: \$799 +GST

Option Two: - Awards and dinners

If your event is a prize giving or awards dinner, then we have the system for you. We give you our full concert grade PA system for a reduced fee, because it sounds great for these events. With long throw horn boxes it can send vocals down the room for up to 300 people.

Included in Option two is our full stage and steps, truss and sound console with one microphone on a stand and all the cables to make everything work.

Price: \$350 + GST

Event Centre Modes of Operation

The Event centre has a variety of formats that it can be configured to in order to maximise both the feel of your event, as well as the number of people that you can fit into the building.

If we have not listed a configuration that you think would suit your event feel free to ask for a quote.

1. Standard stage positioning (*Stage near sound proof wall*) - no additional costs.
2. Stage from standard position to fold/packed away, leaving the venue as one clear space

Price: \$320 + GST each way or \$640 + GST in total.

3. Move the stage from standard positioning to the other end of the Foundry - allowing for the whole space to be opened up for large seated events or dinners:

Price: \$420 + GST each way or \$840 + GST in total.

With the wide range of events that we do on a weekly basis, there is often room for us to make efficiencies between clients meaning some events will only have to pay for the one way shift.

When you book your event we will be in touch to discuss details.

Additional Equipment:

Lectern:	\$70 + GST
Wireless Mic handheld	\$65 + GST
Wireless Mic Headset or lapel	\$80 + GST
Laptop provided	\$200 + GST
Road Hog lighting console	\$350 + GST
LED Colour Changing light	\$30 + GST
Staging Deck (2.4m x 1.2m)	\$40 + GST

We have a full range of instrument backline available, if this is required for your event let us know and we can make all the arrangements for you.

If you have any questions, would like to know if we can supply something or would like a quote for AV at your function or event please contact...
